

February, 2018

Dear Valued Supplier;

ViaSat Inc. must ensure compliance with environmental laws and regulations, especially the European Union environmental legislation EC 1907/2006 Registration, Evaluation, Authorization and restriction of Chemicals (REACH) and European Directive 2011/65/EU on the restriction of use of certain hazardous substances in electrical and electronic equipment (RoHS 2). The RoHS 2 directive was adopted in June 2011 and restricts the use of substances that may pose risks to human health and the environment. 2011/65/EU was updated per Directive (EU) 2015/863 to include 4 additional substances. The updated directive is commonly referred to ROHS 3 or ROHS 10.

To ensure compliance with environmental product legislation, including but not limited to the REACH and RoHS 2&3 Directives, ViaSat must identify the presence of any restricted substances in the components we purchase as well as some substances that may be restricted in the future.

ViaSat has engaged IHS Inc., a worldwide leader in technical content services, to assist us in collecting environmental compliance information. This data is being gathered for components and materials which we purchase from our valued suppliers and your authorized distributors.

Your company is an important supplier to us. We are seeking your cooperation in providing the requested information as quickly and completely as possible. The content data for your products is essential for us to determine the continued use of your product or your recommended compliant replacement product when necessary.

Please provide the requested information to IHS Inc. as quickly as possible, preferably within 2 weeks of receipt of this request. Should you have general ViaSat specific queries about this project please contact Tim Killian at **tim.killian@viasat.com** or **Compliance-ProductEnvironmental@viasat.com** who is responsible for this product content and compliance project.

Please direct all clarification and/or technical questions regarding this request to the IHS contact indicated in the accompanying email.  
We greatly appreciate your cooperation.

Regards,

*Tim Killian*
